Willet & Gray Report That February Saw Greatest Cuban Production in History

SURPLUS OF RAWS HAS COMPLETELY VANISHED

Tremendous Demand For Refined At Home and Abroad Is Boosting Prices

Sales of raw sugar, in New York for the week ended March B were 750,000 bags. Cubss and Porto Ricos, mainly to refiners, in port, affoats, March, and first-half April shipments. This was the heaviest business done in one week for a good many months.

Stocks in the United States and Cubs together 588 131 tons, against

Cuba together \$88,131 tons, against 523,648 tons last week and 522,223 tons

523,548 tons last week and 522,223 tons last year, an increase of 65,708 tons from last year.

Market Very Birong

In part, Willett & Gray's weekly report states that the strength and activity continued throughout the week. Cubs Centrifugals, which hast week were at 5,20e per 1b., duty paid, are at this writing 5,30e per 1b., showing advance for the week of 19 cents per 100 lbs. on a quite extensive buying move.

even that of March, 1915, of 570,082 tons, the previous record production in sny one month. Cable reports through out the week report a continuation of the drought in Cuba. Visible production to March 4 and corresponding dates of two former years compare as follows: 1,239,411 tons, 833,715 tons and 1,046,352 tons.

From the Possessions.

Light, beneficial showers occurred during the week in all sections of Porto Hico.

during the week is all sections of Porto Rico.

Our regular monthly Manila cable gives exports during February of 1000 tons to San Francisco, 5350 tons to UK. and 12,650 tons to Asiatic porta Last year in February there were also shipped 1000 tons to San Francisco and 11,000 tons to Eastern ports. Total exports January 1 to February 29 are 32,000 tons, against 16,000 tons last year Small stocks are still reported in England and refineries can only work partiting because of lack of raws. Commission's sales of American grasulated continue limited in all parts of the king dom.

dom.

France Prohibits Sugar Imports

On March 4 received a cable from our correspondents in Paris that the government had officially announced that private importation of sugars were prohibited and that infringements are subject to pensifies. This means that the government has taken over the control of the sugar business about along the lines prevailing in the U. K.

Private cable advices recently re-

Private cable advices recently re-crived state that the English commis-sion has made arrangements to deliver to the French Government 175,000 tons sugar from April to September.
Austria government is controlling the

consumption, issuing "sugar cards," al-lowing each person 14 kilos (234

pounds), monthly.

Hawaiian Esil Shipments

A train arrived at Philadelphia yes terday bringing the first shipment, of Hawaiian sugars, via San Francisco and overland, for the Atlantic port refiner-ies. The train is said to have establish ed a record for nonsperishable freight making the rus in 14 days.

making the run in 14 days.

Naturally the atrength and advance of raw sugar is reflected in the refined product in an advance from 6.35c, leas 2 per cent, last week to 61/2c, leas 2 per cent, last week for five granters.

Which will be increasing to 1,200 tons It is reported from Grants Pass, Ore gon, that ground has been broken for the new factory of the Ogden Utal Sugar Co.

The Western Sugar & Land Co. of cont. this week for five granters.

Secretary Taylor of Committee Starts Movement For All-1" Year-Round Service

Undanated by the adverse decision of the Great Northern Pacific Steamship of the Great Northern Pacific Steamship Company to discontinue between April and November this year, the Hawaii Premotion Committee yesterday entered upon a campaign to clinch the year-round service by this steamship company when it cosmics its service from California to the Hawaiian Islands in November of this year. The committee also opened up a campaign to have the service resumed in October instead of in November. of in November,

of in November,
'With the general commercial anindustrial organizations and concernin Honolalu and in Hilo cooperating
in favor of the service which the Grea.
Narthern Steamship Company has provided, the present is a very good time
in which to lay plans for a twelvemonths' service by the company.' said
A. P. Taylor, secretary of the committee yesterday.

A. P. Taylor, secretary of the commit-tee yesterday.

'There was splendid cooperation manifested in the guarantee proposition which Mr. Thurston took to the Coas-to lay before the Hill officials, and there is no reason why this same propo-sition should not be made to fit the year 1917, just as it was designed to fit the year 1916.

the year 1916.
We want an all-year-round service is want those boats to run from next ovember to the following November and then right along through the rest

Cube Centritugals, which last week were at 5.32s per 16., duty paid, are at this writing 5.39s per 16., showing advance for the week of 19 cents per 100 has, on a quije extensive buying movement by hoth rafiners and operators, but principally by rafiners.

An unusually large demand for refiner for domerally consumption, together with reports that the Cube crops in likely to be radioed by actieting drought in the Island, are the immediate causes of the strongth exhibited in the taw angas market.

No visible surgins

While the estimated crops of the case sugars of the world appear and fleient to supply the consumption outside of the best sugar countries of Europe, still there is no material surflew of case sugar to offset say material reduction in crop final outtures, hence, the tane and tendency of the raw sugar market is toward ligher prises without material reactions.

Sales during the week are reported in Cubas on as f. e. b. Cuba basis from 3.90e to 3.97e, totaling about 20,000 tone.

The Cuba receipts for the week ending March a were a record, being 157, tons. Exports continued about as record, so that is the continued about as record, so that is the continued about as record, so that is the continued about as record, so that is an another of the listendary of the raw was as an ending of the strain portion.

Sales during the week are reported in Cubas on as f. e. b. Cuba basis from 3.90e to 3.97e, totaling about 20,000 tone.

The Cuba receipts for the week ending March a were a record, being 158, 879 tone. Exports continued about as record, being 158, 879 tone. Exports continued about as record, being 158, 879 tone.

Stock on March 3 was \$30.55 tone to Galvasion, loaving 50,483 tone to some date for the two previous compaigns.

February A Escord Month

These largest February production to the real was sugar to some date for the two production by fee on record, exceeding were that of March 1915, of 570,082 tons, the previous record production in any one mouth. Cable reports through to the feet and provide re

foreign buying of both refined and raw spar, but facts are quite difficult to stain and such rumors are exaggerates

otain and such rumors are exaggerated in amounts.

Experts Continue

The announcement by the Americal hat their reserve refinery in Philadel phile, the Franklin, will resume operations in about three weeks to a month will tend to reduce the backwardness p shipments, which are still in very bad shape by some refiners, and possibly refleve the refined situation sufficiently to prevent any extreme prices. Advances were made in both cane and best in other parts of the country. Domestic best is quoted at 6.40c basic a favorable territory.

Fine granulated for export continues a daily enquiry present quotations being 5.50c to 5.60c, act cash, in bond on the call of the country laked for May shipment.

Josts Mora to Bellie

The California & Hawaiian Sugar Refining Co., of San Francisco, have

Refining Co., of San Francisco, have issued a discular in which they claim that with raws costing 5c per ib. p. margin between raws and refined of 1,06c is necessary to cover cost of re

fining.

The U. S. Department of Agricul ture has issued figures showing the Cohisiana outturn of the 1915 crop a 121 875 tons sugar.

The Hawaiian crop of 1915-16 indicates a slightly lower vield, due to excessive rains, and estimate is reduced to 545,000 tons. On the other hand, Barbados present crop is experiencing favorable conditions, and a increase of 10,000 tons to 50,000 tons sypected. The final figures for Democrata outturn for 1915, show a slight

is expected. The final figures for Den-erara outturn for 1915 show a slight increase, to 113,632 tons.

Domestic Beets

It is understood that it is the in-tention of the Amagamated Sugar Company to calarge their Ogden fac-tory. At present the plant has a slight slight of 700 tons a day which will be increased to 1,200 tons.

It is reported from Grants Pass. Ore

rent, this week for fine granulated.

Six-Cent Sugar Coming

Five cents c, & f. (6.02 duty paid)
for raw sugar, as is quite possible
would mean 7c for refined sugar, but
any probable advance beyond this price
would depend almost entirely upon the
continuation of a heavy export and local demand for refined.

The Western Sugar & Land Co. o'
Grand Junction, Colo., is said to have
been placed in hands of a receiver
Application was made by Colorado
Title & Trust Co., which held a trust
deed and bonds against the company
upon which there was \$1,250,000 principal and \$112,500 interest due. An
attorney in the case stated the receivership was an amicable move for
come acquainted with its conditions. ceivership was an amicable move for come acquainted with its qualities and buying of sugars for itself and for was established in 1899, and is of 700 France also. Rumors are abundant of tons capacity.

roperly Conducted Campaign of Paid Publicity Would Bring Bounteous Returns

ffective Work Done By Pine apple Packers Shows What " Is in Store

The unquestionable results which have followed the various advertisin, ampaigns of the pincapple packers of he mainland and the quick and direct eturns of the advertising of the Hila-Ionolulu service by the management of he Great Northern Pacific Steamshi, company, lead Arthur C. Dele, a visit advertising man, to wonder whethe lesson is not plain enough to a Hawaii to induce a systematic campaig if tourist advertising along much mor-comprehensive lines than has hereto fore been possible for the promotion

mmittee. Mr. Dole's idea is that the direc profits from proper advertising have neen so amply demonstrated, as in the ase of the pincapple output, that the been so amply demonstrated, as in the ase of the pineapple output, that the maneas men of the city, with the ransportation companies, should be easy to savest in systematic publicing a few vices to savest in a systematic publicing bealums, in which, while the rates make highest, the price in the light of the certain returns is the cheapest. Mr. Dole mays:

Wonderful Future For Islands

"I see Hawaii and Honolulu of the outure, a wonderful leading resort of the contraction."

'A see Hawaii and Honolulu of the future, a wonderful leading resort of the world, a necca for the best following travel. For here already is the ourist's desire. All that is needed in afficient boats to bring them, and some note good hotels to keep them, when they reach here.

"There is a wonderful future for the Islands, if they are only advertises properly. Just now, resorts with no

properly. Just now, resorts with no tearly the great attractions, are getting oore people and are thought of first be ause they have been advertised. The islands are already becoming bette. and better known and have received

much free publicity.
"Some good results have been some good results have been at ained through publicity, but what the slands need now is the kind of advertising that is bought and paid for full value received. Somethin hould be done to summon folk here i definite enupnign of advertising alon-egular channels. There would be a real increase in the number of visitor-ad the results locally would do wor ders.

relately better transportation acilities would be stimulated to car or the increase, the hotel accommodations would be increased, and the dollars would roll into the town, which indoubtedly would mean far greate wosperity. It is a mistake to put all the advertising iste one short periosuch as Caraival time because a shorteriod of receiving tourist visitor, neans crowds, inconveniences, and general disatisfaction, white it people are reged to come all the time and are tollars. ... immediately better transportation

ral disatisfaction, while if people are reged to come all the time and are tole if the great all-year around attractions to would stabilize things. Hotels would be better off-and conditions improved all Advertising Will Pay "It certainly would pay the Is'and of fell about themselves in a regulated advertising compaign in newspers and magazines not necessarily utailing a big sum of money, but it way similar to Bermude, Hot Springs lorida and other recorts.

"The success of the Hawa in pine pple packers' advertising is a poor

pple packers' advertising, is a poo-xample for the Islands to follow. The ineapple from ifawaii was delicious The question was how to let the propi-cinow of it, how to tell them, as man of them as possible, and as often a cossible. So with the Islands. Thei ttractions are subreme. If you wan he people to them and enjoy them ad hence by a trade and prosecrit-ell them about them and as often a you can." on can,

Mr. Do'e has been handling the ad ertising of the As ociation of Hawaii in Pineapple Packers, with the Ilurand and Thomas Company of Chicago and knows what he is talking about If you could have seen the pile of aquiries as a direct result of the last ampaignt. ampaign, you wouldn't question whether it paid or not," he says here is still much to he done any what the packers need and probably will adopt is a continuous rermanen authatign, so that they can get bette prices and stabilize their market."

UBLICATION ENDORSED BY CHAMBER OF COMMERCE

The advertising and subscription ommittee of the Chamber of Commerce ad a meeting yesterday and emlorsetherty Patter, a publication of the ts attractions. Today the committee will discuss the advisability of en orsing The Oahuan, published by the upils of Oahu College.

gardens is so great that F. G. Krauss, Rice, Hawailan, cwt. uperintendent of extension work for the Hawaii experiment station has recently prepared a manuscript for a Bananas, burch, Chinese...20 to cently prepared a manuscript for a popular bulletin setting forth the imortance of raising m re vegetables ight in our own andens, and giving orief practical instructions for laying the practical instructions for laying ut and caring for such gardens.

It is possible, as Mr. Kradss points out, to so plan gardens and plantings at a layer l is to insue a regular and constant and ly of one's favorite vegetables. In he conservation of national resources, is important that every tract of land to the garden plot it is usually the nost profitable bit of land, even when gured on a straight dollar and cents

lardening Is Like Golf In addition to this there is the nilcantage of knowing exactly, what
ands have had to lie wish the growing of the vegetables—one's favorite
trains or varieties can be provided to
cand last hat not least the fe tilizers
used on the garden can also be conrolled. Diseases may sometimes be
transmitted by green vegetables, esnecially those which are enten uncook
id and may have been transmitted outtertain hygienic conditions.

It has frequently been pointed outby doctors that less meat and more
egetables ought to be one of the ten
commandments for these who live in
the tropics. Meat rating is largely a
habit and is more easily broken if on In addition to this there is the nil

iabit and is more easily broken if on fives a little attention to the produc ion of his own vegetables in his ow ack yard. In some of the less ace a sible sections of the Islands there is ordinarily a shortage of vegetables which might well be raised locally. hus reducing the amount of money arid out for canned goods and vege ables which at best cannot be perfect y fresh, owing to the time consumed transportation. Any surplus may owently be discored of locally, or

fferent months and then try to time he planting so that the local vege when the market is short as when e market is flooded. Such data

he market is short as wher he market is shoded. Such data may be abtained from The Advertiser filter showing the weekly market reports by the ferrito ial marketing division. A steady supply of vegetables is ery important if the local production of vegetables is to be maintained at should be. An intermittent supply orces dependence to a greater or less legree upon the maintand sources outpoly. The tendency to delegate the tardening work to servants is one which should be avoided if possible in hour or two of work each day in me sown garden is confusive to an arrow ased substite bettermarked to be determined more satisfactory back account. This matter is of importance both the owner of a back lot in the city and partially tract of land near the fact wallships. A very small van perment i

Annulment of M. B. Pacheco's Membership In Lusitana Is Set Aside

JURIST MAKES CAUSTIC OBSERVATIONS IN CASE

Society is Benevolent Principally In Name, Says Decision On Demurrer

In a decision handed down by Circuit Indge Whitney yesterday the Locations Society, one of the two large Ports guese mutual benefit organizations of Honolulu, was told in so uncertain terms that it cannot cancel the mem-bership of Manuel Bento Pacheco, be huse its charter does not give it

cause its charter does not give it that power.

The decision was on a demurrer filed by Claudius H. McBride, appearing for the petitioner, to the return made by the petitioner, to the return made by the society, represented by Judge W. J., Robinson, to the alternative well of mandamus insend by the court and under which the society was ordered to show cause why the complaining member should not continue on its rolls.

'The demurrer is sustained on the grounds that the proceedings whereby the board of directors pretemied to try and condemn the petitioner and therenpon dismiss him from the mociety were absolutely vaid says Judge Whitney at the end of his elevening granted by its charter power so to do, has no inherent power to dismiss a member; and that the contract of the infant in the case at har cannot he set up as a defense to the action of the board of directors in expelling the petitioner."

Decision Important One

The case is one of far reaching Importance to societies such as the Lasitans. The several Portuguese organizations of this character in the Territory number about 7500 mainters, the Loudians along having a membership of about 2500. The decision of yesterday oractically means a territorially means a second mains for this particular men

minins for this particular member to do
is to have an order signed by the
judge annulling whatever action the
society might have taken in the expulsion of the member.

Paghero was a minor at the time of
his admission and he is still under age,
Joaquim Jose Pacheco acting for him.
On February 10, 1812, the petitioner in
the case filed his application for membership, with a medical certificate certifying to the fact that the applicant
had been examined and found of
'sound bodily health and that there
exists no indication of disease that
would debut him from becoming a memher of your society.' Pacheco was admitted.
